Deep Knowledge: Learning to Teach Science for Understanding and Equity (Teaching for Social Justice) Douglas B. Larkin

Deep Knowledge is a book about how people's ideas change as they learn to teach. Using the experiences of six middle and high school student teachers as they learn to teach science in diverse classrooms, Larkin explores how their work changes the way they think about students, society, schools, and science itself. Through engaging case stories, *Deep Knowledge* challenges some commonly held assumptions about learning to teach and tackles problems inherent in many teacher education programs. This book digs deep into the details of teacher learning in a way seldom attempted in teacher education textbooks.
