Based precisely on the ob/gyn specialty exam outline published by ARDMS, this new review contains 520 registry-like questions together with answers, clear explanations, and quick references for further study. More than 100 image-based cases prepare you to tackle the images on the exam. Coverage includes obstetrics (first through third trimesters, placenta, assessment of gestational age, and complications), gynecology (normal pelvic anatomy, physiology, pediatric, infertility/endocrinology, postmenopausal, pelvic and extra pelvic pathology), patient care, patient preparation, and technique (all in the same proportion as the exam itself).

Why are our mock exams so popular and effective? Because they contain the same kinds of thought-provoking questions you will find on the real exam! Approved for 12 hours of continuing medical education (CME) credit by the Society of Diagnostic Medical Sonography (SDMS).
