## **Shadow of the Antichrist, The: Nietzsche's Critique of Christianity** Stephen Williams

There have been many recent studies of postmodernism by Christian writers, but few have considered the continuing influence of Friedrich Nietzsche, the nineteenth-century German philosopher who was sharply critical of orthodox religion. Stephen Williams fills that gap with this study of Nietzsche and his continuing importance. In this book, winner of a Christianity Today 2007 Book Award, Williams is particularly concerned with Nietzsche's critique of Christianity. Nietzsche's negative account of religion has cast a long shadow over twentieth-century philosophy, and Williams suggests that thoughtful Christians need to consider his case carefully. Christian students of intellectual history and pastors will find this study a compelling account of an important strand of philosophical theology that has had great influence on contemporary culture.
