## **Interim Report for the Triennial Review of the National Nanotechnology Initiative, Phase II**

Committee on Triennial Review of the National Nanotechnology Initiative: Phase II, National Materials and Manufacturing Board, Division on Engineering and Physical Sciences, National Research Council

Nanotechnology has become one of the defining ideas in global R&D over the past decade. In 2001 the National Nanotechnology Initiative (NNI) was established as the U.S. government interagency program for coordinating nanotechnology research and development across deferral agencies and facilitating communication and collaborative activities in nanoscale science, engineering, and technology across the federal government. The 26 federal agencies that participate in the NNI collaborate to (1) advance world-class nanotechnology research and development; (2) foster the transfer of new technologies into products for commercial and public benefit; (3) develop and sustain educational resources, a skilled workforce and the supporting infrastructure and tools to advance nanotechnology; and (4) support the responsible development of nanotechnology. As part of the third triennial review of the National Nanotechnology Initiative, the Committee on Triennial Review of the National Nanotechnology Initiative: Phase II was asked to provide advice to the Nanoscale Science, Engineering, and Technology (NSET) Subcommittee and the National Nanotechnology Coordination Office in three areas:

Task 1 - Examine the role of the NNI in maximizing opportunities to transfer selected technologies to the private sector, provide an assessment of how well the NNI is carrying out this role, and suggest new mechanisms to foster transfer of technologies and improvements to NNI operations in this area where warranted.

Task 2 - Assess the suitability of current procedures and criteria for determining progress towards NNI goals, suggest definitions of success and associated metrics, and provide advice on those organizations (government or non-government) that could perform evaluations of progress.

Task 3 - Review NNI's management and coordination of nanotechnology research across both civilian and military federal agencies.

*Interim Report for the Triennial Review of the National Nanotechnology Initiative, Phase II* offers initial comment on the committee's approach to Task 2 and offers initial comments on the current procedures and criteria for determining progress toward and achievement of the desired outcomes.

**From reader reviews:**

**Linda Yohe:**

Do you have favorite book? Should you have, what is your favorite's book? Reserve is very important thing for us to learn everything in the world. Each book has different aim or perhaps goal; it means that book has different type. Some people really feel enjoy to spend their the perfect time to read a book. They are really reading whatever they take because their hobby is definitely reading a book. What about the person who don't like reading a book? Sometime, individual feel need book after they found difficult problem or even exercise. Well, probably you will want this Interim Report for the Triennial Review of the National Nanotechnology Initiative, Phase II.

**Bruce Brown:**

Have you spare time for just a day? What do you do when you have a lot more or little spare time? Yes, you can choose the suitable activity for spend your time. Any person spent their own spare time to take a go walking, shopping, or went to often the Mall. How about open or even read a book eligible Interim Report for the Triennial Review of the National Nanotechnology Initiative, Phase II? Maybe it is to be best activity for you. You realize beside you can spend your time using your favorite's book, you can wiser than before. Do you agree with it has the opinion or you have other opinion?

**Jackie Ballesteros:**

Here thing why this particular Interim Report for the Triennial Review of the National Nanotechnology Initiative, Phase II are different and reputable to be yours. First of all examining a book is good however it depends in the content from it which is the content is as yummy as food or not. Interim Report for the Triennial Review of the National Nanotechnology Initiative, Phase II giving you information deeper since different ways, you can find any book out there but there is no e-book that similar with Interim Report for the Triennial Review of the National Nanotechnology Initiative, Phase II. It gives you thrill examining journey, its open up your own eyes about the thing this happened in the world which is might be can be happened around you. You can actually bring everywhere like in playground, café, or even in your approach home by train. Should you be having difficulties in bringing the published book maybe the form of Interim Report for the Triennial Review of the National Nanotechnology Initiative, Phase II in e-book can be your substitute.

**Charles Brewster:**

Do you have something that you like such as book? The e-book lovers usually prefer to opt for book like comic, short story and the biggest some may be novel. Now, why not hoping Interim Report for the Triennial Review of the National Nanotechnology Initiative, Phase II that give your enjoyment preference will be satisfied through reading this book. Reading routine all over the world can be said as the way for people to

know world far better then how they react in the direction of the world. It can't be stated constantly that reading habit only for the geeky man or woman but for all of you who wants to possibly be success person. So , for every you who want to start reading through as your good habit, you could pick Interim Report for the Triennial Review of the National Nanotechnology Initiative, Phase II become your current starter.
