Souls in the Sea: Dolphins, Whales, and Human Destiny Scott Taylor

Dolphins have long been attributed with intelligence, but do they have souls? Self-awareness? Compassion? Scott Taylor, Director of the Cetacean Studies Institute, investigates the history, mythology, and science surrounding these creatures and emerges with a resounding yes. And not only do whales and dolphins merit our attention and respect in their own right: they are an index to what our future as a species can be.

In this multi-faceted cetology compendium, Taylor surveys the portrayal of dolphins and whales in works of literature as disparate as *Moby Dick* and Sumerian legend, examines biologist John Lilly's research on interspecies communication, and explores the benefits of dolphin-assisted swimming therapy for disabled children and adults. Looking at the world from the perspective of one of these "souls in the sea," Taylor suggests that cetaceans are an ideal bridge between humanity and nature. Poetically written and thoughtfully illustrated with photos and drawings, *Souls in the Sea* is a comprehensive celebration of the biology, history, and mystique of dolphins and whales.

From reader reviews:

Charlotte Hawley:

Information is provisions for folks to get better life, information presently can get by anyone from everywhere. The information can be a expertise or any news even an issue. What people must be consider while those information which is inside former life are hard to be find than now could be taking seriously which one is appropriate to believe or which one often the resource are convinced. If you have the unstable resource then you buy it as your main information it will have huge disadvantage for you. All of those possibilities will not happen throughout you if you take Souls in the Sea: Dolphins, Whales, and Human Destiny as your daily resource information.

William Harris:

Playing with family within a park, coming to see the water world or hanging out with pals is thing that usually you will have done when you have spare time, and then why you don't try issue that really opposite from that. One activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition details. Even you love Souls in the Sea: Dolphins, Whales, and Human Destiny, it is possible to enjoy both. It is great combination right, you still want to miss it? What kind of hang type is it? Oh can occur its mind hangout fellas. What? Still don't get it, oh come on its called reading friends.

Hallie Cathey:

As we know that book is very important thing to add our expertise for everything. By a guide we can know everything we would like. A book is a pair of written, printed, illustrated or even blank sheet. Every year ended up being exactly added. This publication Souls in the Sea: Dolphins, Whales, and Human Destiny was filled in relation to science. Spend your spare time to add your knowledge about your technology competence. Some people has diverse feel when they reading the book. If you know how big good thing about a book, you can feel enjoy to read a book. In the modern era like today, many ways to get book that you simply wanted.

Dorothy Marr:

As a college student exactly feel bored for you to reading. If their teacher expected them to go to the library or to make summary for some publication, they are complained. Just small students that has reading's internal or real their hobby. They just do what the instructor want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that looking at is not important, boring and also can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Souls in the Sea: Dolphins, Whales, and Human Destiny can make you feel more interested to read.
