## **Creation in Space: A Course in the Fundamentals of Architecture Volume 1: Architectronics**

FRIEDMAN JONATHAN B

This course of study in the fundamentals of architecture is for people who have not yet mastered (three-dimensional) space as the medium of architecture as well as they have mastered words and numbers as media for thought and communication.. This book is a companion to the studio experience, the living environment in which works are created. It is organized as a sequence of easy pieces, incremental studies demanding both greater technique and deeper insight. Practicing the exercised in this book is one way to learn the fundamentals of creation in space.
