The Eye of Odin

F.T. McKinstry

The Eye of Odin F.T. McKinstry

Three hundred years have passed since half of Earth froze, and the human race has settled other planets under the supervision and control of a military contractor who harnessed the powers of the higher mind. But when the daughter of a warrior clan who made her fortune as a fighter in the contractor's service is targeted for discovering a secret beneath their dominion, she must learn the nature of a much greater power, one that even the gods revere.

This story is woven into the Norse myth of Odin, the one-eyed, all-seeing god of war, magic and wisdom. He is a complex figure, associated with poetry and inspiration, madness and battle fury. He is also a shapeshifter and considered fickle, not to be trusted.

No one knows whose side he's on.
