A lot of people argue for such a long time if the aliens exist or not. That's why this is a controversial subject.

There are a lot of stories with aliens because 19 million people have reported seeing UFO's and 4 million people have said they were abducted. Some people have reported seeing aliens that looked human like. They say they had gray skin and human like features. Some other people say they have seen aliens that look like a human with skin that looked like an elephant's skin with 3" horns sticking out of every side of their head.

Other people talk about animal abductions. They said that after the animals had been abducted they had their eyes and head were surgically removed or parts of them such as skin or vital organs were missing. The Kenneth Arnold UFO sighting occurred on June 24, 1947, when private pilot Kenneth Arnold spotted a string of nine, shiny unidentified flying objects flying past Mount Rainier.

He said that it was flying 1,932 km/hr. Arnold's description of the objects also led to the press quickly coining the terms flying saucer and flying disc as popular descriptive terms for UFOs.

The Roswell UFO incident took place in the U.S. in June or July 1947, when an airborne object crashed on a ranch near Roswell, New Mexico.

The metal found at the sight was not able to be burned or cut.

The man who found it was William "Mac" Brazel. When he took it to the US Army they said it was only weather balloon material. But William said that if it can't be cut or burned then how it could be balloon material. He believed that the Government was trying to cover something up.

Area 51, also officially known as Groom Lake is a remote detachment of Edwards Air Force Base. It is located in the southern portion of Nevada in the western United States, 83 miles (133 km) north-northwest of Las Vegas.

Area 51 was exposed in the 1990's and everyone knew about it. This place was thought to be one where the Army could test and evaluate foreign technology such as a Soviet fighter aircraft but nobody said something about alien spacecrafts.

All things considered, I believe that aliens are not a myth and I consider that the government tries to hide this because they do not know how people will react. I believe that they exist because our universe is huge and our planet is only a small part of it. That's why anywhere in this universe another species which we call aliens could live.

A lot of people say that they are smarter than us and I tend to believe that because, if the stories are real, they found us with spacecrafts which had more technology than us. I think that if we know that they exist we will try to protect ourselves, but I am sure that this thing has been done by the government for such a long time.
