E-Adoption and Technologies for Empowering Developing Countries: Global Advancements (Premier Reference Source) Sushil K. Sharma

The adoption of technology has provided opportunities for increased participation in global affairs both at an individual and organizational level. As a discipline, e-adoption focuses on the requirements, policies, and implications of widespread technology use in developed and developing countries.

E-Adoption and Technologies for Empowering Developing Countries: Global Advances reviews the impact technology has had on individuals and organizations whose access to media and resources is otherwise limited. With overviews of topics including electronic voting, electronic delivery systems, social Web applications, and online educational environments, this reference work provides a foundation for understanding the interplay between technology and societal growth and development.
