Breakthroughs in Software Science and Computational Intelligence (Premier Reference Source)

Yingxu Wang

As both intelligence and software science revolutionizes the modern world, the contributions that each make to the other combine into a new transdisciplinary field.

Breakthroughs in Software Science and Computational Intelligence charts the new ground broken by researchers exploring these two disciplines. A vital resource to students and practitioners working in computer science, theoretical software engineering, cognitive science, cognitive informatics, and intelligence science, this book establishes itself in this new field, emphasizing the abundance of future applications and advancement.
