Manufacturing Processes: Materials, Productivity, and Lean Strategies

J. Barry Duvall, David R. Hillis

Manufacturing Processes: Materials, Productivity, and Lean Strategies J. Barry Duvall, David R. Hillis
Manufacturing Processes provides an excellent introduction to today's manufacturing processes, as well as an overview of automated manufacturing systems. The text concentrates on the five major types of industrial materials: metals, plastics, ceramics, woods, and composites. It provides thorough coverage of the forming, separating, fabricating, conditioning, and finishing processes related to each material. The text includes a chapter covering the materials and manufacturing processes used in packaging finished goods.
